DOMESTIC PARTNER BENEFITS

Employees are eligible to cover a domestic partner and the domestic partner's children on all insurance benefits that offer dependent coverage.

In order to cover a domestic partner on health insurance & any or all other benefits, including those under the WRS, such as survivor benefits, an employee must submit a notarized [ETF Affidavit of Domestic Partnership \(ET-2371\)](#) directly to ETF in order to establish a domestic partnership for benefit purposes (*this is referred to as a Chapter 40 domestic partnership*).

- The domestic partnership is effective on the date ETF receives a valid affidavit.
- Employees have 30 days from the domestic partnership effective date to add a domestic partner to all eligible benefits.
- Must submit a copy of ETF acknowledgement letter to campus benefits office.

If an employee does not want to create a Chapter 40 domestic partnership, an employee is eligible to enroll a partner and partner's children in all benefits except health insurance and State Group Life Insurance. The employee must submit a notarized [UWS Affidavit of Domestic Partnership \(UWS 50\)](#) and benefit enrollment applications directly to campus benefits office.

- Domestic partnership is effective on the date that UWS receives a valid affidavit.
- Employees have 30 days from domestic partnership effective date to add domestic partner to all non-Chapter 40 benefits (all benefits except health and State Group Life)

See www.wisconsin.edu/hr/benefits/dpbenefits.html for detailed enrollment information.

IMPORANT TAX CONSIDERATIONS: Under federal and state tax code, a domestic partner and a domestic partner's children are typically not considered tax dependents for health insurance purposes. There are tax consequences if you cover dependents that are considered "non-tax dependents" for health insurance purposes under federal and state tax codes.

If any of your covered family members are considered "non-tax dependents" for health insurance purposes, the fair market value of the health insurance benefits provided to those dependents will be included in both your taxable state and federal income. This amount is considered "imputed income" and will increase your taxable income and your tax liability. If you cover a **domestic partner and a domestic partner's children**, he or she must each qualify as a tax dependent under the "qualifying relative" test under Internal Revenue Code (IRC) §152, otherwise you will be taxed on the fair market value of the cost of coverage provided.

You should consult with your tax advisor to confirm that tax status of your domestic partner and your domestic partner's children. Detailed tax information is available online at: <http://www.wisconsin.edu/hr/benefits/ins/sqhealth.htm> and <http://uwservice.wisc.edu/imputed-income.php>.
